

The results of the implementation of the development programme of “Multipurpose Reloading Complex” in the 1st half of 2015

23 July 2015

In January-June of 2015 LLC “Multipurpose Reloading Complex” (MRC) in the port of Ust-Luga (Leningrad region) transferred 10.6 mln Rubles for the development of production capacities.

Main funds were transferred for the modernization of the port infrastructure and purchase of equipment for MRC. In particular, in order to satisfy the growing turnover of the company three new two-leaf grab buckets GH 16-9.5 with capacity of 9.5 м³ each were purchased. In order to increase the efficiency of dust suppression system during handling of coal at the terminal new mobile dust suppression plant WLP-700T was put into operation.

Within the reporting period MRC also made lease payments for the equipment purchased earlier.

Reference:

LLC “Multipurpose Reloading Complex” is a cargo terminal in the port of Ust-Luga in the Leningrad region, specializing in reception, storage and shipment of export and import general and bulk cargoes. Main cargo reloaded by the company is export power generating coal. In 2014 the turnover of LLC “MRC” amounted to 4 mln tons of cargo.
