

In 2015 Multipurpose Reloading Complex increased financing of environmental programme 2.5 times

25 February 2016

In 2015 LLC “Multipurpose Reloading Complex” (MRC) in the port of Ust-Luga (Leningrad region) transferred 5.7 mln Rubles for the implementation of the environmental campaigns which is 2.5 times more than during the last year.

The increase of financing sums was caused by performing of works on expansion of dust suppression system of MRC. The company transferred main part of funds for installation of mobile dust suppression plant the use of which allowed to increase environmental safety during handling of coal at the terminal.

Within the reporting period MRC monitored air on the border of protection area. The results of this monitoring confirmed that air meets air quality targets.

Within the year MRC took measures to preserve water resources. In particular, the company regularly monitored quality of natural waters, checked use of coastal area and treatment of waste water.

Besides in 2015 MRC performed recording and removal of production and consumption wastes and controlled places of their temporary accumulation at the terminal.
