

The results of the implementation of the environmental programme of Multipurpose Reloading Complex

3 August 2016

In the 1st half of 2016 LLC “Multipurpose Reloading Complex” (MRC) in port of Ust-Luga (Leningrad region) transferred over 1 mln Rubles for the implementation of the environmental campaigns.

In particular in order to preserve water resources the company systematically controlled the quality of nature waters, checked use of coastal area and treated waste waters.

For air protection the company monitored its indices at the border of sanitary protection area. The results of research confirmed compliance of air quality with official standards.

For safe handling of production and consumption wastes MRC secured their regular control and removal and also controlled the conditions of their temporary accumulation.

Reference:

LLC “Multipurpose Reloading Complex” is a cargo terminal in the port of Ust-Luga in the Leningrad region, specializing in reception, storage and shipment of export and import general and bulk cargoes. Main cargo reloaded by the company is export power generating coal. In 2015 the turnover of LLC “MRC” amounted to 4.2 mln tons of cargo.
