

# Congratulations of the Managing Director on the professional holiday

29 June 2018

Dear colleagues!

Congratulations on the Day of Sea and River Fleet Workers!

Our professional holiday goes back to bold and ambitious plans of Peter I and we enjoy the privilege of being among those turning them into a reality. Today, we are justifiably proud of being a part of a great maritime history of our country!

Without doubt, we will move forward together along the most challenging fairways of business leaving our mark and contribution to strengthen the economy and enrich the glorious traditions of our maritime power.

I heartily wish you sound health and high spirits! May the needle of your life compass always point to the luck!

S. Chelyadin, Managing Director
